

Nature Camp - Ages 5-10

Your child will be immersed in the natural world within our 14 acre Tapiola Nature and Forest campus. The play based program is interwoven with a balance of engaging games, crafts, skill-building and the arts. Northern Lights Camp is an environment where children develop a sense of self, engage in active play and foster personal and relational wellbeing.

Our days will be filled with a variety of activities including:

- Hikes in the forest, picnics by the river, water colour painting, nature based crafts, wetland studies, plant identification, outdoor co-operative and collaborative activities, songs and movement games, free play, story telling.

What to Bring to Camp

- A healthy lunch, snack and water bottle
- Clothes for all weather (sun hat, rain gear, change of clothes)
- Towel, water clothes and shoes. Daily river play and sprinkler activities require a change of clothes/bathing suit and a towel.

What to Leave at Home

- Our space is media free so please leave media icon clothing, lunch bags and toys at home
- We are an eco-friendly campus and provide eco friendly bug spray and sunscreen on site for children's use. Please do not bring aerosol sprays and deet products to camp.

Liisa Hymander, Camp Co-ordinator, is a Waldorf trained educator and Child and Youth Worker. She provides a deep understanding of child development from a holistic prospective. Our camp capacity is 15 children with two experienced staff.

Drop off is between 9-9:30 am and pick up is by 3pm daily. Tapiola is at 140 Pento Road.
